

Biennial Symposium INVITATION

“Transformative potential of artificial intelligence in reproductive medicine”

The aim of the symposium is to bring together both clinicians and researchers in the field of obstetrics, fertility, embryology and reproduction to present the latest findings in this area and discuss the controversies.

Confirmed speakers

Prof. dr. Mark Scheper

Erasmus MC Rotterdam

*AI & Data Supported
Healthcare*

Prof. dr. Elisabeth Kooi

UMC Groningen

*Neonatal Care for
Sustainable Health*

Prof. dr. Antoniya Georgieva

University of Oxford

*Biomedical Engineering -
Fetal Monitoring - AI*

Prof. dr. Ricardo Kleinlein

Harvard Medical School

*Machine learning models in
reproductive research*

Prof. dr. Masoud Zamani Esteki

UMC Maastricht

*Fertility preservation using
ovarian tissues*

Prof. dr. Rohi Hourvitz

University of Tel-Aviv

*AI in Infertility Care:
The Clinical Perspective.*
